

RevSpring Merchant Services

An Embedded Merchant Model Purpose-Built for Specialty EMRs

As EHR and PMS vendors embed their own payment interfaces, the challenge shifts to what happens after the click to pay. RevSpring powers the processing behind the scenes with minimal IT lift. Deliver a seamless healthcare payment experience inside your platform while generating scalable recurring revenue.

Benefits

Seamless Embedded Experience

Keep payments in-platform with no workflow disruption, preserving UI continuity and boosting client stickiness.

Reduced Risk and Operational Burden

Avoid becoming or managing a payment facilitator while we handle the infrastructure and PCI oversight.

Simplified Payment Operations

Streamline processing, funding, and reconciliation through a single-source merchant model.

Healthcare-Specific Security and Compliance

HIPAA compliant and HITRUST- and PCI-certified, our platform is built for healthcare's strict security requirements.

Client Financial Impact

Your clients enjoy improved collections, simplified pricing, and reduced payment acceptance costs.

Revenue Growth Opportunity

Generate predictable recurring revenue through competitive referral-based revenue share.

Outcomes

5–10%

cost savings

Average processing cost savings for providers

50%

less manual work

Reduction in manual reconciliation time

\$55_B

processed annually

RevSpring processes over \$55 billion in payments every year—infrastructure proven at healthcare scale.

Features

Embedded Iframe Integration

Payments remain inside your platform with no third-party redirects and easy API integration.

Merchant Infrastructure Management

Underwriting, contracts, billing, settlement, reporting, and funding managed by RevSpring.

Automated Settlement-Based Reconciliation

Real-time funding visibility with deposit matching and exception reporting.

Broad Payment Acceptance

Accepts credit, debit, ACH, HSA, digital wallets, and alternative methods like Apple Pay, Google Pay, PayPal, and Venmo.

Secure Device Strategy

P2PE-validated EMV and swipe devices with tokenization and encryption.

Healthcare-Grade Compliance

HIPAA compliant, HITRUST certified, and PCI DSS certified.

Integration Snapshot

RevSpring integrates via embedded iframe architecture within your existing environment. Typical implementation is completed in 4–6 weeks with minimal IT lift. Sub-clients can be onboarded quickly following approval.

Payments are securely processed and reconciled in the background while your platform maintains full control of the user experience.
